

# FIRE SAFETY HOUSE PERMISSION SLIP

Dear Parent/Guardian(s):

Imagine you are a young child and you awake one night to find your bedroom filling with smoke. Your house is on fire! What would you do?

To make sure your child has the skills that can potentially save his/her life, we will be teaching burn prevention and fire escape in class. A key element of this learning process will include a tour at school of the Fire Safety House.

This mobile classroom is specially designed to teach children vital burn-prevention and fire escape techniques through a fun, safe simulation of common hazards. The Fire Safety House is equipped with a kitchen, bedroom and living room which feature the types of dangers children should look for.

In addition, the house fills with non-toxic smoke to teach children to crawl low to safety. A heated door helps children choose the right exit. And, a ladder on the second floor allows them to practice emergency escapes.

If your child suffers from asthma, other respiratory conditions or allergies that may be irritated by the non-toxic smoke, please indicate that below before allowing him/her to tour the house.

## PERMISSION SLIP

- My child, \_\_\_\_\_, has permission to tour the Fire Safety House.
- My child, \_\_\_\_\_, does not have permission to tour the Fire Safety House.
- My child, \_\_\_\_\_, has the following allergy or other condition, that may be irritated by the non-toxic smoke and should not be in the Fire Safety House during that part of the tour.
- My child, \_\_\_\_\_, has the following special considerations, when participating in the Fire Safety House.

\_\_\_\_\_
