Please note: Although every effort has been made to ensure the accuracy of the attached material at the time of printing, complete accuracy cannot be guaranteed. The Division of Fire Safety is not suggesting the use of any specifically named company; this list is merely an aid in your search for a maintenance and/or inspection company of your choice. Please note however that Vermont does NOT license companies, but each person repairing/maintaining/inspecting a conveyance must possess a valid Vermont Elevator Trade License. To verify such information please refer to the website; www.firesafety.vermont.gov

Licensee's are bound by NAESA (National Association of Elevator Safety Authorities) Conflicts of Interest; therefore requiring the use of separate companies for your servicing and inspection needs.
